20.5.15.1503 SITE PRIORITIZATION:

A. The department shall assign a rank to all sites contaminated by releases from storage tanks using the LST Ranking System, as defined in 20.5.1.7 NMAC, and shall classify sites as being first, second or third priority sites. A site's priority shall be based on a minimum site assessment, as defined in 20.5.1.7 NMAC, or other available information that documents an effect or potential effect of the release on public health, safety and welfare or the environment. The department may rerank and reclassify as warranted, based on facts affecting public health, safety and welfare and the environment.

(1) A first priority site is a site where the release of a regulated substance from a storage tank system has created an actual or imminent hazard to public health, safety and welfare or the environment such that the following corrective action is required:

(a) water supply protection or replacement pursuant to Subsection C or D of 20.5.12.1204 and 20.5.13.1303 NMAC;

(b) mitigation of toxic or explosive or potentially toxic or explosive vapors pursuant to Subsection F of 20.5.12.1204 and 20.5.13.1303 NMAC; or

(c) other corrective action as required to protect public health, safety and welfare or the environment from hazards caused by the release pursuant to Subsection G of 20.5.12.1204 and 20.5.13.1303 NMAC.

(2) A second priority site is a site where the release of a regulated substance from a storage tank system has created a source of environmental contamination such that the following corrective action is required:

(a) containment and removal of non-aqueous phase liquid pursuant to 20.5.12.1207 and 20.5.13.1306 NMAC; or

(b) treatment of contaminant saturated soils pursuant to 20.5.12.1208 and 20.5.13.1307 NMAC.

(3) A third priority site is a site which is not first or second priority and where corrective action is required by 20.5.12 or 20.5.13 NMAC.

B. When the department approves corrective action other than minimum site assessments, it shall approve corrective action at sites in order of rank and shall approve priority one sites first, priority two sites after priority one sites, and priority three sites after priority one and priority two sites, except that the department may approve emergency corrective action at any time.

20.5.15.1504 ORDER OF PAYMENTS IN CASE OF INSUFFICIENT FUNDS

A. If, after the department has determined that the owner or operator is in substantial compliance, the department determines that the fund budget or the fund balance is insufficient to cover the amount requested for payment, the department shall promptly notify the owner or operator. Payment for eligible costs shall occur when sufficient amounts are available in the fund budget or the fund, subject to the provisions of this section.

B. If the fund budget or the fund balance is insufficient to pay all applications for payment under 20.5.17.501 NMAC but the fund remains an approved financial responsibility mechanism under 20.5.9.911 NMAC, the department shall pay applications for payment for approved corrective action in order of priority as established in accordance with this part from the funds available, so long as funds are available.

C. Applications for sites of equal score based on the priorities established in this part shall be paid in order of date of receipt of complete applications for payment. For applications for sites of equal score with the same date of receipt, the earliest date on which a corrective action was taken as evidenced by the date of the earliest invoice included in the application, shall determine the order of payment.

D. When the fund budget or the fund balance is insufficient to pay all applications for payment under 20.5.17.501 NMAC and the fund is no longer an approved financial responsibility mechanism, the department shall make payments according to priority rank as established in this part and in the following percentages, so long as funds are available:

(1) 100 percent of all reasonable and necessary eligible costs incurred to complete a minimum site assessment in excess of the deductible;

(2) 100 percent of all reasonable and necessary eligible costs incurred to conduct a secondary investigation in accordance with 20.5.12.1211 or 20.5.13.1310 NMAC;

(3) in the case of reasonable and necessary costs incurred to complete corrective action other than the minimum site assessment and secondary investigation, according to the following formulae:

(a) for owners or operators of two or fewer facilities used for retail gasoline sales and whose facilities have less than 40,000 gallons combined total of product dispensed monthly, averaged over the last two years of operation: first priority Leaking Storage Tank (LST) ranked sites: 100 percent; second priority LST ranked sites: 95 percent; third priority LST ranked sites: 90 percent;

(b) for sites owned or operated by other owners or operators: 100 percent for first priority LST ranked sites. The percentage of payment for second and third priority LST ranked sites shall be based on the ending quarterly unobligated balance of the fund proportional to the amount of each application for payment received in that quarter for these sites. The quarters end on June 30, September 30, December 31 and March 31. The percentage of payment equals the unobligated fund balance on the last day of the quarter divided by the dollar amount of reasonable and necessary eligible costs of applications for payment received in the quarter, not to exceed 100 percent. For purposes of this subparagraph, "unobligated balance" or "unobligated fund balance" means corrective action fund equity less all known or anticipated liabilities against the fund.

(4) Payment for remaining eligible costs shall be made pursuant to Subsection E of this section.

E. When the fund is reestablished as an approved financial responsibility mechanism, payment shall be made for the balance of the eligible costs previously submitted but not paid under provisions of this section. These payments shall be made in the order in which sites were ranked by the department, in accordance with this part, as funds become available.

F. The department's determinations under this section concerning the availability of funds shall be final and not subject to appeal.

[20.5.15.1504 NMAC - N, 8/15/03]

20.5.15.1505 RESERVED MONEY:

A. The department shall establish a reserve of \$1,000,000 in the fund for the costs of taking emergency corrective action. The department may make expenditures from this reserve during the fiscal year and replenish the reserve at the beginning of the next fiscal year.

B. Money that is reserved pursuant to Subsection A of this section may be expended by the department only for corrective action necessary when an emergency threat to public health, safety and welfare or the environment is determined by the department to exist.
